

To all FCC Commissioners:

Although this opinion is likely too late for your consideration I desire to express my thoughts pertaining to changes to FCC rules that will permit consolidation of media ownership.

I am convinced the changes to permit consolidation of ownership will reduce informed knowledge of the voting constituents of our country and greatly threaten our democratic republic.

Further I adamantly believe that the changes are an insult to the people who gave the ultimate sacrifice of their lives when they fought for our country's democracy. These changes do not serve our country. These changes weaken our democracy to enrich a minority, this minority being the corporate executives, shareholders, and other "behind the scenes" people who desire to control information.

Please reconsider your votes today. Do not relax the rules of ownership in media markets. Once the door is open to the media giants it will be nearly impossible to undo and not probable that we will be able to dismantle. Honor our veterans.
